Software engineering enthusiast experienced in AI-powered applications, scalable backend systems, REST APIs, and full-stack development. Skilled in RAG pipelines, NLP, and database-driven architectures. Seeking Software Engineering or AI-focused opportunities to build scalable, production-ready systems.

EDUCATION

Sri Krishna College of Technology, Coimbatore | Expected: June 2027

B.E. in Computer Science and Engineering (Focus: AI, ML) | CGPA: 9.0

Nava Bharath National School, Coimbatore | Higher Secondary Education (CBSE) | 2023 | 90.2%

EXPERIENCE

AgenciFlow India Private Limited – Full Stack Development Intern | Onsite: May 2025 – June 2025

- Developed a Course Management System using React, Spring Boot, MySQL, and REST APIs.
- Implemented JWT-based authentication and role-based access control for admins, instructors, and students.
- Designed backend services in Spring Boot and integrated them with a React frontend.
- Managed structured course data using MySQL with RESTful API endpoints.

PROJECTS

Role-Based AI Documentation System | FastAPI, React, PostgreSQL, Gemini API

- Developed a role-based document management platform supporting guest, student, staff, HOD, and admin access.
- Implemented AI-powered document querying using a RAG pipeline with Gemini API for contextual document search.
- Built scalable FastAPI backend with JWT auth and PostgreSQL (Supabase) using async SQLAlchemy.
- Created a React interface supporting document upload, department filtering, and intelligent search.

AI Career Decision Predictor Chatbot | Python, NLP, BERT, Streamlit

- Developed an AI chatbot that recommends career paths based on user skills and interests.
- Integrated BERT-based NLP models for contextual query understanding.
- Built a machine learning pipeline mapping user attributes to career predictions.
- Deployed an interactive Streamlit interface for real-time conversational guidance.

TECHNICAL SKILLS

Languages: C++, Java, Python, SQL

Backend & APIs: Spring Boot, FastAPI, REST APIs, JWT Authentication

Frontend: React, HTML, CSS, JavaScript

Databases: MySQL, PostgreSQL, pgvector, Supabase

Core CS: OOPS, DBMS, OS, Computer Networks, Data Structures & Algorithms

AI Integration: RAG Pipelines, LangChain, NLP, Gemini API, Vector Databases

Cloud & Tools: AWS (EC2, S3), Git, Swagger, Postman

ACHIEVEMENTS & ACTIVITIES

- Academic Topper Award (2025–2026)** — Highest academic performer in the department.
- NeoSprint’26 (iamneo – NIIT Venture)** — Top 5 team and Grand Finale qualifier in a national innovation challenge.
- Thiran’25 Hackathon** — Grand Finalist; built an AI emotional companion chatbot using Mistral LLM.
- Microsoft Azure AgentCon** — Workshop on AI Agents & Agentic AI; earned AI Skills Badge and Azure credits.
- Agentic AI Workshop – IntegraConnect** — Industry session on AI agents and automation workflows.

CERTIFICATIONS

- AWS Cloud Practitioner Essentials — Amazon Web Services
- Foundations: Data, Data, Everywhere — Google (Coursera) | Feb 2024
- Big Data Computing — IIT Kanpur (NPTEL) - 85%
